## IS OUR COUNTRY SAFE?

No Republic Can Long Survive  
Unjust and Corrupt Elections.

It is not surprising that Secretary Taft should serve on Cuba so emphatic a warning as he did in his special report to Congress on the Cuban affair. "If the insurrectionary habit persists," is the way he puts it, "if again the Cubans divide into armed forces, the strong hand of our Government will have to be imposed at whatever cost to life and property and permanent peace should then ensue because it would be of our keeping."

The meaning is clear, that in the view of Secretary Taft, one more insurrection down in Cuba means that the United States Government will intervene, not for temporary but for permanent occupation.

And what is the lesson of Cuba's troubles? And what will insure Cuba's peace and integrity in future?

The lesson is that no republic can long survive unjust and corrupt elections, which furnish the vitality and machinery of Government. To insure Cuba's peace and integrity in future Cuba must have fair and free elections. There must be proper laws for municipal Governments, for elections and for the independence of the judiciary and they must be enforced. The lapse from republican ideals and the ascendancy of corruption wrought the havoc of last year, and they will destroy again.

Let us be wise and do our little part by seeing that in our city and county we practice fairness and honesty in elections. Corruption will dishonor the entire State, when each county tolerates frauds.

J. A. Scott, Avon, Ky., says: "Bourbon Hog Cholera Remedy cured some hogs for me that I did not think could possibly be saved. I had said I would not give fifteen cents for these hogs." Sold and guaranteed by W. S. Lloyd.

## Did She Forget?

Physicians say Mrs. Neill, of New York, may have killed her husband and have no recollection of it. Of course. When a woman is madly buying Christmas presents she cannot remember every little thing she does in moments of vexation.

Baby won't suffer five minutes with croup if you apply Dr. Thomas' Electric Oil at once. It acts like magic. 25-54.

## Highest Priced Orchid.

The highest price ever paid for any orchid was paid last March, at an auction sale in London, for a heavily-marked form of Odontoglossum, \$6,035, and but for a small plant. It has enormous heavy blotches of chocolate brown on each segment of the flower, occupying approximately one-half the area.—Country Life in America.

## FROZEN TO DEATH.

Tragic Death of Mrs. Mary Gordon, of Bourbon County.

While returning home from Lexington, where she had been Saturday to do some Christmas shopping, Mrs. Mary Gordon, who resides near Paris, in Bourbon county, was overcome by the severe cold and as a result was frozen to death.

Mrs. Gordon went to Lexington to arrange a compromise with the Blue Grass Traction Company, for an accident on that road. She was expected to return on the 4 o'clock car Saturday afternoon and her nephew, George Hyspshire, was there to meet her. She did not come on that car, however, and it was thought that she had stayed with relatives in the city. She came, however, on the 5 o'clock car, leaving it at the intersection of the road to her home one and one-half miles from car line. Her nephew supposed she would spend the night in Lexington and returned home.

As no one was at the station to meet her she with her bundles of presents started to walk home. The night was cold and she evidently became numb and stopped. Her dead body was found Sunday morning by her nephew who again went to meet her.

## For Tobacco Raisers.

Shelburne's Tobacco warehouse at Lexington, Ky., is now open and selling tobacco at satisfactory prices for all its patrons. Not one single lot has been rejected since they opened, Dec. 4, and every customer has gone home well pleased with the sales. Shelburne is the originator of daily sales and open house on the Lexington market and every day and every night his house is open and ready to receive tobacco at all hours.

Planters will always find someone to give them a hearty welcome at Shelburne's and will find every possible accommodation for themselves and their teams. Shelburne's is lighted with large, solid sky-lights affording the best light for the display and sale of loose leaf tobacco that can be obtained.

It also has the largest sales floor and most commodious driveways, and in fact is in every way the best constructed and equipped warehouse in the whole Burley section.

Mr. Silas Shelburne gives his personal attention to every lot of tobacco sold at his warehouse and guarantees the highest market price for every parcel. The buyers at Lexington are eager for tobacco and are paying outside prices for all grades and are determined to make that the leading burley market of the world.

Our planters will make no mistake in carrying their tobacco to Shelburne's Warehouse, which is located on Hayman Ave., west side of South Broadway, opposite the Burley Loose Warehouse, Lexington, Ky. 22-44.

Cravens will conduct your sales.

## CONTEST IN MIDDLESBORO.

The Anti-Saloon League Charges Cross Frauds in Voting.

The contest petition was filed with the Election Contest Board by attorneys for the Anti-Saloon League, at Middlesboro last week, alleging wholesale fraud in the local option election held at that place on December 11. It is alleged that no less than sixty-five illegal votes were cast in the City Hall precinct which went wet by ninety majority. The town voted for saloons by about 35.

**Car With Speed of 100 Miles an Hour.**

Extensive experiments are being conducted by the Louisville and Nashville Railroad company at its Shops in South Louisville to perfect a motor car with which to equip its line between Louisville and Shelbyville. Twenty-two trains a day are now run over this line. The institution of the trolley system, the third-rail and other motive agencies have been considered at different times, but for various reasons they have been discarded. The expert machinists of the company are now at work upon the models of steam and gasoline motor cars. The model that has met with the greatest favor is that of a car to be run by gasoline said to have attained a speed of 100 miles an hour on the Union Pacific railroad, where it is used to gather traffic for through trains from points where limited trains do not stop.

## Notice.

There will be offered for sale on the 16th of Jan., 1907 at 1794 acres of land lying in the county of Montgomery on the waters of Slate creek, on the Howards Mill & Mt. Sterling turnpike road. Said land to be sold as a whole or divided into three tracts and described as follows viz: Four good dwelling houses, four good orchards, two large tobacco barns; three stock barns. No. 1 garden with each house. All in grass except about twenty acres that was in corn this year. Well watered by two good wells and Slate creek. About 100 acres of this land bottom land and second bottom land, or land that can be plowed both ways. This land is strictly Bluegrass land; 20 to 25 acres tobacco land, on rural road route No. 4. Convenient to church and schools, and in good neighborhood. Title perfect. Terms made known on day of sale. For further information write or call on N. T. Clark, 23-44, Olympia, Ky. Sale will take place on premises.

## Fee Allowed.

In response to a request from Auditor Hager a ruling was made by Attorney General Hays as to what fees are to be allowed Sheriffs and County Clerks for issuing warrants for and collecting delinquent taxes on real and personal property. He holds that Sheriffs are entitled to six per cent on the first \$300 and three per cent on all amounts after that; County Clerk's are entitled to 60 cents for issuing warrants for delinquent taxes; for recording such tax sales one cent each ten words; 25 cents for recording release or redemption and ten cents for indexing each name against whom a warrant is issued.

"Dow's Ointment cured me of eczema that had annoyed me a long time. The cure was permanent."—Hon. S. W. Matthews, Commissioner Labor Statistics, Augusta, Me. 25-34.

## Asylum Patient Dies After Costing State \$10,000.

After costing the State more than \$10,000 to care for her during her long life, Lucy Darby, the last survivor of the 113 patients transferred from the Lexington asylum to the Western Kentucky asylum at Hopkinsville, when it was opened November 21, 1854, is dead at the latter institution, aged 77 years. She sustained a fracture of the hip ten years ago, and had been bed-ridden ever since and totally blind.

Lucy Darby was born in the Lexington asylum, her mother having been a patient of the institution at the time and lived there until she was transferred to Hopkinsville when 25 years old. Her case was a strong demonstration of the influence of the law of heredity, as she was the deceased offspring of a demented mother. The asylum officials claim that this one demented offspring cost the State more than \$10,000 in per capita alone. The woman had no relatives and her remains were interred in the asylum cemetery.

## Tobacco.

Attention of tobacco growers is called to the Growers Tobacco Warehouse, of Lexington, which sells loose tobacco. If the tobacco is hauled in wagons, it shows to better advantage; but if it is to be shipped we recommend that it be prized light, 700 to 800 pounds to the hogshead. We dry shipments from depot free. Free lodging for drivers and places for teams overnight is provided.

Our terms for sale are 2 per cent commission and 15 cents per hundred pounds and pay \$1.00 for empty hogheads.

Sends His Father-in-Law Fifty One Thousand Dollar Bonds.

Fifty thousand dollars in 6 per cent gold bonds received by William Pace Lee, treasurer of the Louisville Gas Company, from E. R. Thomas, of New York, will rank among the most munificent Christmas gifts made between individuals in the world. The donor is the son-in-law of Mr. Lee.

## Carpenter Selected.

The Kentucky Union has selected as new field secretary of Kentucky, Homer W. Carpenter. The Executive Board met in Cincinnati and appointed a committee of three consisting of Mr. Hopper, State President; Mrs. Charles F. Evans, State Secretary, and Miss Nell Williams, Superintendent of Juvenile Work. The committee began correspondence with Mr. Carpenter and he has now accepted it. Mr. Carpenter is a young man of pleasing personality and bright mind. He is a very interesting speaker, possessing oratorical ability, and quite capable of filling the position, which is one of the most important in young people's work in Kentucky. He once preached at Corinth in this country.

## WHAT IS CATARRH?

**Simple Way to Overcome the Dangers of this Disagreeable Disease.**

Stomach dosing in the hope of curing catarrh of the head and throat is useless and often leads to serious stomach trouble.

Hyomei, breathed through a special inhaler that comes with every outfit, brings with medicated healing air to every part of the nose and throat, killing all catarrhal germs and soothing and easing any irritation in the mucous membrane.

A complete Hyomei outfit costs but \$1. Extra bottles of Hyomei if needed 50 cents, and W. S. Lloyd gives his personal guarantee with every package that money will be refunded unless the treatment cures.

25-27

## Bill of Exceptions.

Judge Harris, who tried the disbarment proceedings against Judge Beckner, declined to come to Winchester to pass upon the bill of exceptions prepared by Judge Beckner's attorney's, and Attorney Davis went to Louisville with them to appear before Judge Harris there. This bill of exceptions has been filed in the Court of Appeals. Judge Beckner feels confident the higher court will reverse the decision.—Winchester Democrat.

## The Racial Square Deal.

"Throughout my term of service in the Presidency I have acted on the principle thus advocated. In the North as in the South I have appointed colored men of high character to office, utterly disregarding the protests of those who would have kept them out of office because they were colored men. So far was in my power, I have sought to secure for the colored people all their rights under the law. I have done all I could to secure them equal school training when young, equal opportunity to earn their livelihood, and achieve their happiness when old. I have striven to break up peonage; I have upheld the hands of those who, like Judge Jones and Judge Speer, have warred against this peonage because I would hold myself unfit to be President if I did not feel the same revolt at wrong done a colored man as I feel at wrong done a white man. I have condemned in unstinted terms the crime of lynching permitted by white men, and I should take instant advantage of any opportunity whereby I could bring to justice a mob of lynchers. In precisely the same spirit I have now acted with reference to these colored men who have been guilty of a black and dastardly crime. In our policy, as in the other, I do not claim as a favor, but I challenge as a right, the support of every citizen of this country, whatever his color, provided only he has in him the spirit of genuine and far-sighted patriotism.

## Democratic Committee.

The Democratic State Central Committee, at a meeting at Louisville choose Judge Henry Hines as Chairman of the State Campaign Committee, the other members are Judge John Hager, of Ashland, Judge J. E. Robbins, of Mayfield, Jerry Sullivan, of Richmond, and Dr. Milton Beard, of Harrodsburg. The Advisory Committee consists of one from each Congressional District.

## WHAT WILL TAEY DO?

This is a question asked of Republicans relative to the temperance question, and we can answer it easily by asking another. For years they have had control at Washington and had a question of putting saloon out of business or even the prohibition of the making of whiskey been brought before congress they could have settled that question and saved the people of heart-aches and much expense. Have they done anything along these lines? Will they? Their past record on this subject answers no.

There is no better business city in Mt. Sterling and yet we have many needs. We need better streets. Can the city get them? Yes, she has the credit, then why not? An individual with credit, can buy farms and pay for them, and likewise they build houses and hold large stock interests, and all this on the basis of credit alone. What individuals can do by a struggle corporations can accomplish easily. The council only need to do some financing to obtain better streets.

Whether or not Mt. Sterling and Montgomery county will be desirable places for investment of capital, the continuance or securing of homes, places fit for the rearing of families depends largely upon the enforcement of law, the willingness of citizens to report wilful violations of law or to protect their own material, social and moral interests. An erring man can sometimes be saved by persuasion, kind words, leniency. We must live for better conditions.

Major Harris vetoed the action of the City Council giving saloon license to Manley, successor to Hicks and Alfrey. The Mayor was supported by three councilmen. The people complained and the Mayor did the initiative.

Down goes \$600. The city would thrive with every one of the saloons out of business. Let them go.

In this issue appears an advertisement of the Home Steam Laundry. We do not hesitate to say that our people should patronize home enterprises. We practice what we preach. The Home uses distilled water free from microbes that destroy the body. We can't be too particular with our washing.

With Tuesday came the dawning of another new year, 1907. The year just closed is behind us, but the impressions are lasting. Thus realizing we know how important it is to rightly consider the passing time, be thankful to Him who has directed and kept us as we pressing on to nobler heights.

Requests, persuasions, warnings, threats, attempts to do, or have done violence are some of the inducements to prevent people expressing facts or observations or opinions on questions of public interest. Choose the right and all will be well.

## NO SORES.

Kentucky Democrats are getting closer together as was demonstrated in the appointment of men on the Campaign and Advisory Committee. There can be no room for Republicans in the States Administration.

Saloon license has been raised to \$600 per year, which means more of the destroying stuff must be sold in order to satisfy the saloonist. Admonish and guard your boys, for they will be persuaded as the hounds scents the hare.

Read the circular letter distributed by H. Clay McKee & Sons and join the working band. It is worth while for you to join hands with your city, your county and your State.

All men of law and order approve the action of the President in the discharge of the negro soldiers in Texas.

The city council has fixed saloon license at \$600, an increase of \$100. \$1,000 would have been better.

Men have volunteered to pay their subscriptions. Think of it. One did so on Monday.

The New Year is on. Resolve to do and then go and do it. Be right and go ahead.

We presume the usual exodus from the grand Jury will soon be arranged.

The weak gas pressure last week leaving some places without gas and bringing a chill with the anxiety was due to the regular becoming disordered. The time required in cleaning same was not calculated correct and there was not sufficient gas in the pipes to meet the demands of the consumers. The gas pressure from the wells has not been perceptibly reduced and we know of no cause for unrest.

## DISGRACE

## PERPETUATED.

For Revenue Ten Saloons Receive Legal Permit to Debauch and Damn.

Only One Dive Knocked Out. Thanks for Progress.

Last year there were (Sept. 19) twelve saloons in our city. The powers that be decreed that Allen Bros. should be sidetracked, and they went.

There was a special meeting of the City Council on Monday night for the sole purpose of considering applications for liquor licenses. Councilman Cockrell was the chief spokesman. By unanimous vote of the Council, and as there was no protest, licenses were granted as follows: To Wm. Botts, Jas. P. King, M. A. Weedon, P. H. Davis, J. R. Hainline, Mike Holland, Dan Young, Tidby Minchin (at National Hotel), Ed Gibbons, (Dan) Holland & (Thos.) Cook at Baumont Hotel. Total, 10.

Application was made for C. E. Manley, to whom the Dock Hicks license was recently transferred. This has been a tough place. Manley formerly lived at Morehead, and his abandoned wife now lives there. She had written a letter to the Police Judge of Mt. Sterling filing objection to the granting of a license to Manley and asking the Judge to lay her letter before the Council. We doubt not she knew facts. Modesty on our part and a regard for the proprieties of society constrain us to decline telling what she said in that letter. For a confirmation of some facts she referred to several of the leading citizens of Morehead, giving their names. In addition to this protest Mayor C. W. Harris objected to the granting of the license. He said in substance that the current report about town is that Manley is conducting a saloon in the interest of Allen Bros., who in September had by the Circuit Court been put out of business and forever barred from engaging in the same business in Kentucky, also that he had been informed by a very reputable citizen that packages marked "Allen Bros." had more than once been seen on the pavement in front of Manley's saloon; he also admonished the Council to be cautious in setting at naught the decisions of the Circuit Court.

Councilman Cockrell made a plea for Manley, stating that Oldham Greene, cashier of the Traders National Bank, had told him (Cockrell) that for months, and before transfer of Hicks license to Manley, Manley had money on deposit in the Traders National Bank. Then the vote was taken on granting the license. Those voting for the license were Wm. Botts, Boston Botts, Cockrell, Goodpaster & Staton at 10c; W. O. Chenault at 11c; Morrison Poor at 10c; A. J. Gatewood 11,000 at 10c and 4,000 at 5c.

J. S. Boggs sold to Hissle for American Tobacco Co. 75,000 at 10c. Several other crops sold at prices from 5c up. We have given some of the best.

will be ten saloons, each paying \$600, total \$6,000.

So far as revenue is concerned the city treasury is not changed by the result. So far as decency and honor are concerned the city is making rapid progress, if the closing of two saloons will proportionately reduce the drinking of whisky and the accompanying debauch. Two more business houses are, temporarily at least, vacant; but that ought not to be regarded seriously. If the writer was owner of those houses he would prefer to have them without tenants than to be used for such a business, just as he and his partner have for years refused to open the columns of this paper to whisky advertising. We don't want revenue that way.

We are pleased to publicly express to the Mayor and Councilmen Bourne, Rodman and Wade our thanks for knocking out that dive.

We are unalterably opposed to licensing saloons. If we had it in our power we would close every saloon in the State. We advocate prohibition instead of license. We submit to license because the laws of our State authorize the issuance of license. If we have to choose between high and low license we say put the license so high that the business would be unprofitable and prohibitive.

We may be regarded as a crank, extremist or something worst, but we glory in such reproach (O). We expect to see a fulfillment of our plea—all saloons closed.

Three of our banks have statements in this issue. We ask a careful study of the condition of the financial institutions. Mt. Sterling can easily boast of her banks as solid institutions the same as she can of her city being wide awake, enterprising and plucky.

The daily paper which best meets the demands of the man of the Southland is the Courier-Journal. Its editorials, news and miscellany are just it. The New Year issue is a bird.

### "Company, Attention!"

"For recreation you will now listen to a story from headquarters." — Capt. Rexall, Adj.

#### THE HUMAN LOCOMOTIVE.

A certain man, because he was so strong and hearty, imagined he was a locomotive. There was, he thought, no limit to his vitality.

He decided to construct, as the firebox. All he had to do was to keep the firebox full.

He followed the Mississippi steamboat plan, and crowded everything into his stomach.

One day when he was pulling a heavy load the firebox didn't burn right, so the Human Locomotive got out of breath.

He found the flames closed, the firebox full of cinders, and so suffocated with heat that it couldn't even how a red glimmer.

Somebody told him to keep a clean firebox with a chimney, and feel it regularly, which only a certain quantity at a time.

He was further advised to use Rexall Dyspepsia Tablets for the purpose of putting himself in first-class shape.

He lied as he was told, and was soon able to pull and haul as well as ever. Besides he pulled less under a heavy load.

#### Standard of Loyalty to Flag.

In speaking of discharge of colored troops the President said: "I wish it distinctly understood that the fact of the birthplace of either officer is one which I absolutely refuse to consider. The standard of professional honor and of loyalty to the flag and the service is the same for all officers and all enlisted men of the United States army, and I resent with the keenest indignation any effort to draw any line among them based upon birthplace, creed or any other consideration of the kind. I should put the same entire faith in these reports if it had happened that they were all made by men coming from some one State, whether in the South or the North, the East or the West, as I now do, when, as it happens, they were made by officers born in different States."

#### Gave All to Missions.

At Warsaw, Indiana, Elijah Hays has gone to the Poorhouse penniless, aged eighty-seven years. During his whole life his ruling passion was the support of the foreign missionary cause of the Methodist Church, and during his life he is said to have given over one hundred thousand dollars to the

#### Standard of Loyalty to Flag.

In speaking of discharge of colored troops the President said: "I wish it distinctly understood that the fact of the birthplace of either officer is one which I absolutely refuse to consider. The standard of professional honor and of loyalty to the flag and the service is the same for all officers and all enlisted men of the United States army, and I resent with the keenest indignation any effort to draw any line among them based upon birthplace, creed or any other consideration of the kind. I should put the same entire faith in these reports if it had happened that they were all made by men coming from some one State, whether in the South or the North, the East or the West, as I now do, when, as it happens, they were made by officers born in different States."

#### Old People

#### NEED VINOL

It strengthens and vitalizes.

With old age comes feebleness and loss of power; the blood is thin and digestion weak.

Vinol restores worn tissues and checks the natural decline. It tones up the digestive organs, aids assimilation, makes rich red blood, and keeps every organ in the body. In this natural manner Vinol replaces weakness with strength.

Try it on our guarantee.

#### THINKS HE GOT OFF EASY.

CLARK HOWELL, of Atlanta, tells of the sad case of an elderly darky in Georgia charged with the theft of some chickens. The negro had the misfortune to be defended by a young and inexperienced attorney, although it is doubtful whether anyone could have secured his acquittal, the commission of the crime having been proved beyond all doubt.

The darky received a pretty severe sentence. "Thank you, sir," said he cheerfully, addressing the judge when the sentence had been announced. "Dat's mighty hard, sir, but it ain't anywhere near what I 'spect." I thought, sir, dat between my characther and dat speech of mah lawyer dat you'd hang me shone."

#### What "Tax Free" in Kentucky

Would Mean in Development of Bluegrass State.

HOW the effect of the tax laws of Kentucky is viewed by a prominent Philadelphia banker is expressed in the following extract from a letter received by a well-known Louisville banker who was recently elected to the vice presidency of one of the largest banks of that city:

"If we could only get a just tax law in your State then you will assume a position you are entitled to and can maintain through the inherent wealth you have, but until you do, I, as a warm, and I may say enthusiastic, friend of the State, see nothing inviting in your future. I wonder whether your aw-makers have ever thought of what it would mean to the State and the inhabitants thereof, if they could print a prospectus offering bonds issued 'Tax free in Kentucky' to them. They mean that money owned by Kentuckians will be kept within the borders of their State and applied to the development of the State's interests. The State gets a tax on the bonds by assessing a tax rate on the corporation that issues the bonds."

"When I see the truly marvelous development of Pennsylvania and its interests, I stand in wonder and amazement trying to find its cause. I say aside from the State's great natural resources, it is due to the wise, just and equitable tax laws it has.

DO YOU KNOW THAT notwithstanding the cost of our new State Capitol building—nearly \$30,000,000—all equal to the cost of the Congressional Library building at Washington, the State paid for it out of its revenues and the State now has not a debt of any kind, but a surplus in its treasury?"

# Chew What You Know About and Know What You Are Chewing

There is real pleasure in chewing the best tobacco grown—where the best tobacco grows—in the famous Piedmont Country.

Only choice selections of this well-matured and thoroughly cured tobacco is used in making SCHNAPPS. That's why SCHNAPPS and others of the Reynolds' brands, as shown by the Internal Revenue statistics for a fiscal year, made the wonderful growth of six and one-quarter million pounds, or a net gain of one-third of the entire increased consumption of chewing and smoking tobaccos in the United States.

Evidently, chewers cannot resist the flavor and they cheer SCHNAPPS because SCHNAPPS cheers them more than any other chewing tobacco, and every man that chews SCHNAPPS passes the good thing along—one chewer makes other chewers—until the fact is now established that there are many more

chewers and pounds of tobacco chewed to the population, in those States where SCHNAPPS tobacco was first sold than there are in the States where SCHNAPPS has not yet been offered to the trade.

SCHNAPPS is like a cup of fine Java coffee, sweetened just enough to bring out its natural, stimulating qualities. SCHNAPPS pleases all classes of chewers: the rich, because they do not find a chew that really pleases them better at any price; the poor, because it is more economical than the large 10c. or 15c. plugs and they get their money's worth of the real snappy, stimulating flavor so appreciated by tobacco lovers. All imitations contain much more sweetening than SCHNAPPS. They are made that way to hide poor tobacco improperly cured.

For the man who chews tobacco for tobacco's sake, there is no chew like SCHNAPPS.

Sold at 50c. per pound in 5c. Cuts. Strictly 10c. and 15c. Plugs

### THE STATE OF ICELAND.

A French paper gives an interesting account of the one theater to be found in Iceland. It is, of course, situated at Reikjavik, and it has been open since 1894. There are two or three representations a week, and the dramatic season begins in October and ends in April. The theater receives a subsidy of 500 crowns from the municipality and an equal sum from the Icelandic parliament. As there is no gas in Iceland, it is lighted with petroleum, but next year the electric light is to be introduced. The repertory consists of the plays of Ibsen and Bjornson, of several of the classical works of Danish literature and of a few comedies by Icelandic authors.

An "immense success" means a run of about seven nights, the population of Reikjavik being only about 3,000. As for the actors, it must be difficult for them to make their fortunes, the average salary being only 16 shillings a performance. The greatest of the actors—known as the Talma of Iceland—is Christian Thorgrinsson.

### THE CAULIFLOWER.

Of the word "cauliflower" a writer in the London Chronicle says: "The modern spelling is artificial, and if we were to write it as we pronounce it, 'coliflower,' we should be taking a step back in the natural direction. 'Coliflower,' as they spelt it in the sixteenth century, brings out the true meaning of the vegetable's name, 'flowered cabbage'—'cole' being an old word for cabbage and 'flore' representing the French 'fiori' or 'fleur,' flowered. But because in Latin it was called 'cauliflora' it began to be written 'coleiflorie' or 'coleiflorie' in English, probably by deliberate assimilation to the Latin, and eventually even to be written 'cauli,' though still pronounced 'cole.' Meanwhile the second part of the word got popularly corrupted to 'flower.'"

### DERIVATIONS OF WORDS.

"Cutler" according to its present use should mean a man who makes things that cut, but really it has no more to do with "cut" than "cullas" and "cutlet" have, which is just nothing at all. "Cut" has some Teutonic origin, but "cutler" comes through French from the late Latin "culturarius," which meant either a soldier armed with a knife or a knifemaker, and "cutlins" a little knife, was the diminutive of "cultur," which, among other things, meant a plowshare (or "coulter"). "Cutlass" comes from the same source and "cutlet" is "colette," a little rib.

A bill has been introduced in the Belgian Parliament providing for the destruction of automobiles. It seems to be a case of destroy the automobiles or the people.

The Maryland woman who had a Christmas tree for her pet dogs saw that there was no bark on it.

The Belgian people seem to be sore at automobiles on account of the many sore spots caused by the benzine buggies' vagaries.

### Bad Stomach Makes Bad Blood.

You can not make sweet butter in a meadow cream barn. The stomach serves as a churn in which to agitate, work up and digest the food we eat. If it is not digested, if it is weak, sluggish and foul the result will be weak, sluggish and foul.

The ingredients of Dr. Pierce's Golden Medical Discovery are just such as best suit the stomach. It is made without a drop of alcohol in its composition and contains no opium, stimulants, or delirious agent like alcohol, especially in the early stages of stomach, dyspepsia and other forms of indigestion. Prof. Fred E. Ellingswood, M. D., of Jefferson Medical College, Philadelphia, says of it:

"It is indeed an excellent product. It is one of the best manufactured products I have ever seen. Its action upon feeble, disordered stomachs, gastrico-jejunal inflammation of stomach, and other intestinal diseases, will relieve many cases of pyrosis, heartburn and excessive gastric acidity."

The question of drinking tea was practically unknown among natives up to 12 years ago. Government servants were the first to take it up, and it is at present principally used in this class. Gradually its use extended to village landlords, and even to the more well-to-do cultivators and village officers, especially within the last three years, the example of railway irrigation employees having materially assisted its introduction.

Some castes have a special liking for it and drink it even three or four times a day.

### TAKING THE BEE CURE.

Pointers on Interesting Subjects Given by Life.

One of the latest cures for rheumatism is bees. These are applied to the place or places most in need.

Care should be taken before applying the remedy to secure good, active bees. Some bees are naturally timid by nature. They are undersized and underfed and have not the courage of their stingers. It must not always be inferred, however, that the size of a bee determines his power. It frequently happens that a small bee will make up in energy and perseverance what he lacks in avoidability.

Some bees have naturally kind dispositions. They avoid trouble. It is almost unnecessary to say that these are not the best for our purpose.

With a little experience the patient will be able to tell almost at a glance the most ferocious bees, and will learn methods of his own to gland them on to their task. It is well, is possible, to examine them individually, and see that their stings are in perfect order.

A bee with a weak stinger only does harm, for he interferes with the best work.

It is well known that bees are methodical in their work, and it is not well to hurry them too much. When you have your swarms ready, place yourself undressed in an armchair with some good book and let the swarm loose in your room.

It is believed that they will instinctively choose the right places to settle, but in case they do not at first, let them try over again. Poke them up occasionally with a sharp stick.

Do not doze off while they are applying the cure. The mental part is essential. The patient's attention should be fixed on himself, even if it requires some effort of the mind.

If you see no immediate improvement, don't be discouraged. Get new bees from time to time and keep it up.—Life.

### MODEL NURSERY.

The House Beautiful describes a model nursery, not a handsome room with furniture made to order, decorated walls, and nursery rhyme pictures, but simply a big, sunny room at the top of the house. "In one corner is the girls' doll house. On a zinc-covered stand under the window is a sizable gas stove with an oven and two burners. Here the children make candy and bake apples; here the little girls wash and iron their dolls' clothes without let or hindrance from the rulers of the kitchen. There is a deep closet to this room, with drawers allotted to each child. In the lowest drawer are old gowns of mother's, old hats of father's, the loveliest old artificial flowers, parasols, shawls, delectable and everything you can imagine for dressing up or play-acting. A very small room adjoining is fitted up as a workshop for the oldest boy. A carpenter's bench fills most of the space, having clamps and vises, and drills and screws, and other mysteries requisite to the handicraft. A shaft runs round the room, holding models of various things, tins of glue, stains, varnish. A cabinet of tools hangs on the wall."

# Chew What You Know About and Know What You Are Chewing

There is real pleasure in chewing the best tobacco grown—where the best tobacco grows—in the famous Piedmont Country.

Only choice selections of this well-matured and thoroughly cured tobacco is used in making SCHNAPPS. That's why SCHNAPPS and others of the Reynold's brands, as shown by the Internal Revenue statistics for a fiscal year, made the wonderful growth of six and one-quarter million pounds, or a net gain of one-third of the entire increased consumption of chewing and smoking tobaccos in the United States.

Evidently, chewers cannot resist the flavor and they cheer SCHNAPPS because SCHNAPPS cheers them more than any other chewing tobacco, and every man that chews SCHNAPPS passes the good thing along—one chewer makes other chewers—until the fact is now established that there are many more

chewers and pounds of tobacco chewed, to the population, in those States where SCHNAPPS tobacco was first sold than there are in the States where SCHNAPPS has not yet been offered to the trade.

SCHNAPPS is like a cup of fine Java coffee, sweetened just enough to bring out its natural, stimulating qualities. SCHNAPPS pleases all classes of chewers: the rich, because they do not find a chew that really pleases them better at any price; the poor, because it is more economical than the large 10c. or 15c. plugs and they get their money's worth of the real snappy, stimulating flavor so appreciated by tobacco lovers. All imitations contain much more sweetening than SCHNAPPS. They are made that way to hide poor tobacco improperly cured.

For the man who chews tobacco for tobacco's sake, there is no chew like SCHNAPPS.

Sold at 50c. per pound in 5c. Cuts. Strictly 10c. and 15c. Plugs

## City Ten Centuries Old.

The city of Ripon, England, celebrated recently with a procession and various entertainments the 1,029th anniversary of its incorporation. Each division in the procession represented a century.

Secretary Shaw says he has nothing to offer in the way of relief for the money market. A little money might help some.

## A NEW DIVERSION.

"That fall of seven stories was the finest experience I ever had. The pleasant sensation was the best I have ever enjoyed." The declaration was made to physicians at Bellevue hospital by William Bushell, 19 years old, after he fell down the air shaft from the seventh floor of the Hotel Seville. Bushell, who is a plumber's assistant, lost his footing while working in the air shaft. He received a slight bruise on his head and walked to the Bellevue hospital to have it treated.

"I enjoyed that fall very much," said Bushell to Dr. Lewis. "When I first fell myself, it frightened me, but then came a feeling of delight. I was drunk with exquisite pleasure. I received a shock when I struck the concrete flooring in the basement, but that was nothing serious."—Chicago Daily News.

## EASIER TO SIT.

When the candidate for legislative honors did not wish to answer a question he was never at a loss for words to avoid it.

"Where do you stand on the question of women's suffrage?" asked an austere and influential person, his bosom at a small dinner.

The tactful man turned to her with a gallant but deprecating smile. "My dear madam," he said gently, "have you the heart to ask me to stand anywhere after such a dinner as I've eaten to-night?"

## OVER THE PHONE.

Mr. Sterling, Ky.

Gentlemen—I would like to say for the benefit of those thinking of changing their location that to my knowledge a person cannot do better than locate in the Northwest. The demand for labor can not be supplied, and you have a market for every thing that is raised. The principal crops in this section of the country are prunes and Irish potatoes. Common labor demands \$2.25 per day, teamsters \$4.00 per month and board, farm hands \$25 to \$30 per month. The railroads that are being constructed have to depend wholly upon foreign labor.

Truly yours,  
R. F. D. No. 1. W. B. HALL

On Sunday morning Dec. 23, about 3 o'clock the residence of Will A. Young at Morehead was destroyed by fire. We were told that the only thing saved was one couch. Mrs. Young was in Texas.

Mr. Young was in Morehead but not at his residence. The fire had gained such headway when discovered that nothing could be done. A Lexington paper stated that the insurance was \$1500, loss about \$20,000.

## Shooting in Nicholas.

Near Carlisle, Leslie Crockett, aged 22, while under the influence of whisky shot his friend Ray Martin aged 18.

Dick Ellis on Saturday Dec. 22, shot Ed Bitterman, County Judge ordered guards put at jail to protect Ellis from a reported mob, then withdrew order and sent him to Maysville jail.
